Abstract. *This document provides information and instructions for preparing a paper to be included in the Proceedings of the 6th ECCOMAS Thematic Conference on Uncertainty Quantification in Computational Sciences and Engineering (UNCECOMP 2025). The paper can be written in LaTeX or Word. The first page is reserved for the title of the paper, the authors, affiliation, key words and the Abstract. The introduction must begin at the top of the second page. All the instructions as well as the source for the example files for LaTeX or Word can be found in the website of the Conference.*

1 INTRODUCTION

The proceedings will be edited using Portable Document Format (PDF), will be available online and at the ECCOMAS website and also will be indexed in SCOPUS database with link to the full text in PDF. The paper should be written following the format of the LaTeX or Word macros for submission that can be found on the Conference website: <http://2025.unccecomp.org/>. **The file has to be translated to Portable Document Format (PDF) before submission. Authors must upload the PDF file, correctly formatted online through the Conference website.** The deadline for uploading the full-length paper is given at the conference website. The organizers do not commit themselves to include in the Proceedings any paper received later than this deadline. **At least one of the authors must register and pay his/her registration fee before the deadline for their paper to be included in the final program of the Conference.**

2 GENERAL SPECIFICATIONS

The paper must be written in English within a printing box of 16 cm x 24 cm, centered in the page. There is no limitation regarding the number of pages of the final contribution. Nevertheless, only full papers with 6 pages or more (including figures, tables and references) will be indexed in **SCOPUS**.

3 TITLE, AUTHORS, AFFILIATION, KEYWORDS

The first page must contain the Title, Author(s), Affiliation(s), Keywords and the Abstract. The second page must begin with the Introduction. The first line of the title is located 3 cm from the top of the printing box.

3.1 Title

The title should be written centered, in 14pt, boldface Roman, all capital letters. It should be single spaced if the title is more than one line long.

3.2 Author

The author's name should include first name, middle initial and surname. It should be written centered, in 12pt boldface Roman, 12pt below the title.

3.3 Affiliation

Author's affiliation should be written centered, in 11pt Roman, 12pt below the list of authors. A 12pt space should separate two different affiliations.

3.4 Keywords

Please, write no more than six key words, which will be used to compile the CD-ROM index. They should be written left aligned, in 12pt Roman, and the line must begin with the words **Key words:** boldfaced. A 30pt space should separate the key words from the affiliations.

3.5 Abstract

Use 12pt Italic Roman for the abstract. The word **Abstract** must be set in boldface, not italicized, at the beginning of the first line. The abstract text should be justified and separated

12pt from the keywords, as shown in the first page of these instructions. The abstract should neither be too short nor exceed the first page.

4 HEADINGS

4.1 Main headings

The main headings should be written left aligned, in 12pt, boldface and all capital Roman letters. There should be a 12pt space before and 6pt after the main headings.

4.2 Secondary headings

Secondary headings should be written left aligned, 12 pt, boldface Roman, with an initial capital for first word only. There should be a 12pt space before and 6pt after the secondary headings.

5 EDITORIAL HEADING

The first page will include the Editorial Heading, as shown in the first page of these instructions. In addition, successive pages will include the name of the authors. The Editorial Heading must be included in the paper by the authors.

6 TEXT

The normal text should be written single-spaced, justified, using 12pt (Times New) Roman in one column. The first line of each paragraph must be indented 5 mm. There is not inter-paragraph spacing.

7 PAGE NUMBERS

A paper will be found in the CD-ROM by the author's name or using the keywords. The Proceedings of the Conference will be also available in the ECCOMAS website and will be indexed in SCOPUS database with link to the full text in PDF. The final e-book with the Proceedings will have its own page numbers, and as a result the authors should NOT include page numbers in their papers.

8 FIGURES

All figures should be numbered consecutively and captioned. The caption title should be written centered, in 10pt Roman, with upper and lower case letters.

A 6pt space should separate the figure from the caption, and a 12pt space should separate the upper part of the figure and the bottom of the caption from the surrounding text.

Figures should be included within the text rather than added at the end of the paper.

9 EQUATIONS

A displayed equation is numbered, using Arabic numbers in parentheses. It should be centered, leaving a 6pt space above and below to separate it from the surrounding text.

The following example is a single line equation:

$$Ax = b \quad (1)$$

The next example is a multi-line equation:

$$Ax = b \quad (2)$$

Figure 1: Page layout.

$$Bx = c$$

10 TABLES

All tables should be numbered consecutively and captioned, the caption should be 10pt Roman, upper and lower case letters.

Title 1	Title 2	Title 3
C21	C22	C23
C31	C32	C33
C41	C42	C43
C51	C52	C53

Table 1: Example of the construction of one table.

A 6pt space should separate the table from the caption, and a 12pt space should separate the table from the surrounding text.

11 FORMAT OF REFERENCES

References should be quoted in the text by numbers [1, 2] and grouped together at the end of the paper in numerical order as shown in these instructions.

12 REVIEW

Peer-review under responsibility of the organizing committee of UNCECOMP 2019.
